BULBS FOR FALL PLANTING

Owing to the unsettled condition of affairs we are not making our usual Import Offer of Bulbs, but have reduced our list and will carry these varieties in stock.

In making our selection we have been guided by the choice of our patrons in the past, and only list those for which we had the largest demand.

It is very important that we secure your order at an early date and offer a discount of 5% to all ordering before July first, where cash is sent with order.

We are assured that the Holland bulbs will arrive, though they may be late, and we advise to prepare for a late delivery, and cover the beds where the bulbs are to be planted with a few inches of manure or litter, to prevent the ground from freezing. This can be removed and bulbs planted when they arrive. Bulbs for house culture can be potted any time from September to January.

COLLECTION OF INDOOR BLOOMING BULBS

For one who does not care to go over the list and pick out the different varieties, we are making up collections of Winter Flowering Bulbs for growing in the house, which, if properly cared for, will give flowers in the house from shortly after Thanksgiving until the Springtime takes our thoughts back to the outdoor garden.

We shall be pleased to supply collections at \$2.50, \$5.00 and \$10.00 each.

COLLECTION OF BULBS FOR PLANTING IN THE GRASS AND ON THE EDGES OF LAWNS

Few amateur gardeners know the value of the beautiful little bulbous plants one may grow in the grass or along the edges of the lawn or among the shrubbery, or in fact anywhere in the garden. They are best planted in little groups or colonies, and in the early spring enrich the barren spots with their beautiful flowers and foliage. Some will bloom even before the snow is off the ground.

The bulbs suited for this kind of planting are many and varied and, except for a few, are comparatively little known, except in the large show gardens of the East where they are planted extensively.

In order to introduce these early spring flowering subjects we have made up collections including the easily cultivated sorts and can supply these at \$2.50, \$5.00 and \$10.00 each.

DARWIN TULIPS

No other bulbous flower was ever received with greater acclaim than this truly "Queen of All Tulips." In her royal splendor she outshines all her companions, and with her majestic appearance she wins the admiration of all flower lovers and instant approval of those who see her for the first time.

"Darwins" are a class of Tulips which flower long after the other tulips have flowered, and in the vicinity of New York are at their best between May 15th and May 30th. They are slow in developing and, therefore, last much longer. The truly gigantic flowercups are borne on stout straight stems, which rise far above a broad foliage and which commonly attain a height of 2 to 3 feet. The flowers are uni-colored and have as their charm a base of a different color. To step into the garden at the noon hour and peek into the cups of Darwin Tulips is a treat for the eye, wondrous to behold, never to be forgotten. In the garden they may be planted as regiments in massive beds, but more artistically in proper color arrangement in irregular groupings as a ribbon to shrub borders or as clumps in succession. To fill their place during summer while they are dormant sow *Lavatera* above them after the flowers have gone by, and they can then be left undisturbed while no vacancy is formed by their sleep.

	Doz.	100	1000
Baronne De La Tonnaye. Vivid light pink, margined blush. One of the showiest varieties in pink, and used extensively in all better gardens. The flower stands upright to the last, keeping its brightness without regard to weather. Height, 26 inches. If you carpet the pink <i>Bellis Perennis</i> under these tulips and let the spikes rise through it, you are producing one of the loveliest pictures in your garden.....	\$.50	\$3.25	\$30.00
Bartigon. Flery crimson. A very showy variety of the most vivid crimson with a pure white base, showing off and illuminating the color even more intense. (R Brilliant Carmine Red).....	.70	5.00	45.00
Clara Butt. Delicate salmon pink. A medium sized flower and stem, but of such perfect shape and lovely color that it is the most popular of its class. (R Clear Self-colored Rosy Pink.) Height, 21 inches.....	.50	3.25	30.00
Corydon. Soft heliotrope, flushed lilac, a true pastelle shade. (R Deep Lavender, with a lilac shade).....	.60	4.00	35.00
Dream (Syn. Reve De Jeunesse). Beautiful soft uniform lilac. Large flower. Height, 26 inches.....	.65	4.50	40.00
Edmee. Also known as Beauty. A beautiful shade of vivid cherry rose, with a margin of lighter color. Height, 25 inches.....	.65	4.25	37.00
Europe. Brilliant flame scarlet, with showy base of white. One of the most glaring colors, and keeping its bright color to the last. The flower stems are always erect. (R Glowing Scarlet Red.) Height, 22 inches.....	.55	3.50	30.00
Farncombe Sanders. Brilliant rosy red, with a clear white base. One of the largest and most beautiful of all Darwins. Its color is unapproached. It has but one fault, namely, the flower is so heavy that in stormy weather the bloom often breaks off the stem. (R Vivid Deep Rose.) Excellent for forcing. Height, 25 inches.....	.55	3.50	30.00
Flamingo. Delicate shell pink. A new variety of most lovely shape and exquisite color. For a dainty effect it has no equal in this class. (R Soft Thulite Pink, self-colored).....	1.05	8.00

DARWIN TULIPS—Continued

Gretchen. Also known as Margaret. The flower is but medium in size, but is carried erect on a stout, tall stem. Its color is most refreshing, namely, a pale, creamy pink, so clean and attractive that one must call it a gem. (R Pale Rose, flushed with white).....	.40	2.50	20.00
La Candeur (Syn. White Queen). Almost pure white when mature, as a bud it is pale rose and with its black antlers it presents a very attractive picture. Height, 24 inches.....	.50	3.25	30.00
Lantern (Syn. Nizza). Wistaria colored, paler toward the edge, tipped outside mauve rose. Quite artistic in coloring, but flowers are only of medium size. Height, 20 inches.....	.50	3.25	30.00
La Tristesse. A true pastelle shade, a mauve purple so highly admired in antique tapestries and costumes. Intensely artistic. Height, 26 inches..	.70	5.00	45.00
Madame Krelage. Soft lavender rose, with a broad margin of blush pink. Grows exceedingly tall, and is exceptionally handsome. Height, 28 inches	.55	3.50	30.00
Marconi (New). Immense flower of dull violet, with distinct white base. The color that all artistic gardens seek and retain.....	.70	5.00	45.00
Massachusetts. Gigantic flower of vivid rose pink, showing a white center. (R Tyrian Pink, the edges rosy white flushed.) Height, 26 inches.....	.55	3.50	30.00
Nora Ware. Delicate wistaria color, showing a darker shade toward the center of petals. A clean and delicately colored flower.....	.60	4.00	35.00
Painted Lady. Creamy white. Faintly tinged soft heliotrope when opening. Quite distinct in form, resembling a water lily. Height, 27 inches.....	.55	3.50	32.00
Philip de Commines. It would have been better named "Othello," for, like the royal warrior, it is majestic in its dark coloring of deep purple, and enriched by an exquisite velvety sheen. In a combination with the lighter pastelle shades it is illuminating.....	.65	4.50	50.00
Pride of Haarlem. Glaring carmine rose. The color is in a class by itself and produces in masses such an attractive effect that one must stand in silent reverence before it. The flower itself is delightfully perfumed. (R Bright Tyrian Pink).....	.55	3.50	31.00
Psyche. A noble flower of extreme beauty. The silvery pink petals unite in a goblet of Roman architecture, held erect on graceful, slender stems. When our vision beholds the view of the base of the inner cup, we cannot help but exclaim, for the combination of light blue running off into pale rose is altogether alluring. For vase work, where we can show these beauty spots, it is artistic to say the least. Considering the inexpensive-ness, it should be found growing in colonies in the garden. (R Soft Rose Pink).....	.55	3.50	31.00
Rev. Ewbank. Silvery heliotrope; rather dwarf in growth, but its color is very artistic, especially when shown under artificial light.....	.55	4.00	42.00
Salmon King. Rich deep salmon rose; a distinct and lovely color, which is universally desired. When these are planted as rising through a carpet of Pink English Daisy (Bellis Perennis) they present a picture of exquisite beauty.....	.55	3.50	31.00
The Sultan. Also known as "Joseph Israels." The color, maroon black, sombre. Medium sized flower.....	.45	2.75	25.00
The Yellow Darwin (Inglescombe Yellow). An elongated, goblet shaped flower, of glossy canary yellow. It is the only yellow which can be combined with the Darwin. Dream a blending of this sort with the richer violet or purple sorts and your artistry is complete. Height, 21 inches..	.55	4.00	42.00
William Copeland (Syn. Sweet Lavender). Lilac rose; not a large flower, but excellent for forcing as it is extremely early. Height, 24 inches.....	.55	4.00	42.00
William Pitt. Brilliant carmine enlivened by a flame-like suggestion in the petals, which gives it a resemblance to the richness of the Single Early Tulip, "Couleur Cardinal".....	.60	3.75	33.00

HEATHERHOME'S CHOICE COLLECTION

OF

Darwin Tulips

Collection A.	2 Bulbs each	of 12 Varieties.	Our selection.....	\$1.10
Collection B.	6 Bulbs each	of 12 Varieties.	Our selection.....	3.00
Collection C.	12 Bulbs each	of 12 Varieties.	Our selection.....	5.50

Darwin Tulips in Mixture

	Doz.	100	1000
Heatherhome Mixture. We can truthfully say that no finer blending of Darwin Tulips has ever entered the ports of America. This mixture is blended from the finest named sorts, which if ordered by name could not be purchased for three times the price we ask for it. It will be a most pleasant surprise, we are sure, to all who try it.....	\$.30	\$2.00	\$19.00

Rembrandt Tulips

This new class of late Tulips is an offspring of the Darwins. They are identical in character, habits and other virtues, and differ only in one feature, namely in colorings. All flowers are either striped, feathered, blotched or penciled and are wonderfully beautiful.

In massive clumps in front of shrubbery they are a picture, and for cut purposes they excel all other tulips.

Mixed Rembrandts

Our mixture contains many sorts and will please the most critical.....	Doz.	100	1000
	\$.40	\$2.75	\$23.00

COTTAGE OR MAY-FLOWERING TULIPS

A class of Tulips which are fairly tall, are massive in texture, produce enormously large flowers and appear at the same time as the Darwins. They may be used for garden bedding or shrubbery. In this class we have all colors and shades, and for this reason many varieties can be used advantageously in blending with Darwin Tulips to create artistic color blendings.

	Doz.	100	1000
Bouton d'or (Ida) (Golden Beauty). Deep golden yellow with black anthers; medium-sized cup-shaped flower; a very popular sort, holding its flower always erect			
Elegans. Brilliant crimson, yellow base; recurving petals; long stem; forces easily	\$.40	\$2.75	\$23.00
Ellen Willmott. Primrose yellow. The flower is long and narrow, with slightly reflexing petals on a very tall and straight stem. When it opens the color is primrose on the outside and canary yellow inside; later on the color grows bright yellow.....	.45	3.00	28.00
Fairy Queen. Rosy heliotrope with a broad amber yellow margin.....	.75	5.50	48.00
Gesneriana Lutea. Deep golden yellow; of perfect form and large size.....	.45	3.50	30.00
Gesneriana Spathulata (Major). Dazzling scarlet with blue base. One of the most popular sorts. The flowers are very large and last long. Splendid for mass effect in shrubbery borders or for naturalizing.....	.45	3.00	28.00
Golden Crown. Yellow, bordered and feathered orange scarlet.....	.45	3.00	28.00
Inglescombe Pink (Salmon Queen). Soft rose with a salmon flush, turning deeper as the age of the flower progresses.....	.40	2.50	23.00
La Mervellie. Orange scarlet, flushed rose with yellow center. The largest flower of the entire class. Exquisitely formed.....	.45	3.00	26.00
Orange King. Bright deep orange. The large sweet scented flowers last unusually long45	3.00	28.00
Picotee (Maiden's Blush). The elongated large flower is of snowy white, artistically bordered soft pink on the extreme of each petal. As the flower ages the entire petals turn pink. Grown to-day in massive beds where thousands are used in a single planting and are exceedingly attractive... ..	.40	2.50	24.00
Retroflexa. A Tulip of a unique form; namely, that of an urn. The yellow petals recurve elegantly and one could readily take the flower for that of a lily.....	.45	3.00	28.00
Royal White. Pure white with primrose on the center of the petals; largest late white Tulip.....	.70	5.00	48.00
The Fawn. Pale rosy fawn, changing to blush rose. The color is most delicate and pleasing. The flower is large, egg shaped, and has a good stem45	3.00	28.00

COTTAGE GARDEN TULIPS IN MIXTURE

	Doz.	100	1000
Hundreds of exquisite shades and forms combined to make a feast for the eye	\$.40	\$2.25	\$20.00

BREEDER TULIPS

Breeder Tulips are a class of out-door tulips which flower as late as the Darwins, which have tall stems and noble large elongated flowers of solid art shades, such as purple, maroon, terra cotta, buff and bronze, and as a companion to the gay Cottage Tulips they are unsurpassable. The gardener who loves rare colors in flowers will appreciate these lovely beauties.

	Doz.	100	1000
Apricot. Dull bronzy buff, shaded ruddy apricot with olive base; large flower; very effective in borders. Height, 25 inches.....	\$2.50	\$18.00
Bronze Queen. Soft buff inside tinged golden bronze with yellow center.....	1.25	9.00
Cardinal Manning. Dark rosy violet, flushed with rose brown. (R Rosaline Purple); very artistic.....	.75	5.50
Jaune d'Œuf. Ruddy apricot with yellow edge. The red color on the outside grows lighter toward the edge. An odd but most attractive color. On account of its reasonable cost it should be planted in masses.....	.55	3.50
Prince of Orange. Orange scarlet, edged lighter red. (R Deep Carmine, flushed orange at the edge).....	.95	7.00
Superb Blending of All Colors55	3.50	\$2.00

SPECIES OF TULIPS

Exquisite for their dainty or rich color, their fantastic or rather artistic form and their peculiar charms. Interesting because they are natives of Asia Minor and Central Asia, and found there in the valleys and on the slopes. Valuable because they constitute one of the hardiest classes of tulips, and therefore are ideal for hardy borders, rockeries, woods or naturalizing.

	Doz.	100	1000
Florentina Odorata (Sylvestris). Pure yellow, drooping flowers. Exceedingly fragrant and known also as the sweet wild English Tulip. Fine for naturalizing	\$.60	\$4.00	\$35.00
Kaufmanniana. Palest primrose tinged rosy red on outside. Enormous flower of handsome form with broad, reflexing petals. The earliest of all tulips, flowering in March.....	1.25	9.00
Viridiflora (The Green Tulip). Flowers green edged yellow; large, odd and handsome60	4.00	35.00

PARROT TULIPS

A very interesting class of tulips. Their name has been derived from the colorings of the flowers. They are late in blooming and have flowers with cut and fringed petals. While the flowers are large, the tall slender stems are not stout enough to support them, and for this reason they are best suited for the shrub or hardy border. Parrot Tulips can never be guaranteed a flower to every bulb, and on account of this should be planted thickly in masses.

	Doz.	100	1000
Splendid Blending of All Sorts.....	\$.30	\$2.00	\$17.00

SINGLE EARLY TULIPS

This class of tulips is so inexpensive that every garden can be made a blaze of color in the early Spring. They are the earliest tulips and are used very largely for bedding and bold mass planting.

For forcing they are unexcelled, and are the easiest of all tulips to be brought into bloom in the house.

If any of the older varieties you have long been familiar with are not included you may be sure their place is taken by one of more value to the garden.

We have marked with an asterisk * the varieties especially suited for growing indoors in the winter.

Scarlet and Crimson Varieties

	Doz.	100	1000
Belle Alliance. Large sweet scented brilliant vermillion scarlet. * (R Dark Scarlet and Crimson).....	\$.60	\$4.00	\$35.00
Prince of Austria. Brilliant copper red. A very sweet-scented, tall-stemmed tulip. * (R Orange Scarlet).....	.45	3.25	29.00
Vermilion Brilliant. Bright vermillion scarlet, with yellow base. * (R Glittering Scarlet Red).....	.80	6.00	55.00

Pink and Rose Varieties

	Doz.	100	1000
Cottage Maid. Pink and white striped. Recommended for house culture only. (R Rose Pink).....	\$.35	\$2.50	\$24.00
Cullinan. Delicate rose; this beautiful sport of Flamingo has special value on account of its attractive color, which is the finest amongst the rose shades85	6.50	60.00
Pink Beauty. Vivid cherry rose, with a broad band of white through the center of the petal. Enormous flower of superb shape.....	.70	5.50	47.00
Prosperine. Deep silky rose. The flower is deliciously fragrant. *85	6.50	60.00
Queen of the Netherlands. Very delicate bluish pink, with white base. Large egg-shaped flower40	2.75	25.00
Rose Grisdelin. Blush white, shaded delicate pink. Splendid for bedding and potting40	2.75	25.00
Rose La Reine. Dark rose. A lovely color. *85	6.50	60.00
Rose Luisante. Dark silky rose. * (R Dark Rose, the upper petals white over the middle and passing off white to the base).....	.70	5.50	50.00

White Varieties

	Doz.	100	1000
Joost von Vondel White (Lady Boreel). Snowy white. Immense flower of goblet shape. *	\$.70	\$5.50	\$50.00
La Reine. White, slightly shaded rose. Not recommended for bedding out. *85	2.60	24.00
L'Unique. White with yellow base. Very odd and scarce.....	2.50	18.00
White Beauty. A pure white sport of the great "Pink Beauty." Most beautiful of all.....	3.50	25.00

Yellow Varieties

	Doz.	100	1000
Gold Finch. Pure deep yellow, extra good. * (R Lemon Yellow, equal to Yellow Prince).....	\$.40	\$2.75	\$24.00
Golden Queen. Golden yellow. Superb for all purposes. *60	4.00	35.00
King of the Yellows. Deep golden brown. The flowers are egg-shaped. * (R Deep Empire Yellow).....	.50	3.50	32.00
Mon Tresor. Rich deep yellow. Large flower of handsome shape. * (R Rich Empire Yellow).....	.65	4.50	40.00
Ophir d'Or. Bright clear yellow. Very early to bloom. * (R Rich Empire Yellow)55	4.00	37.50
Yellow Prince. Golden yellow, sometimes streaked with dull brownish red. Very large flowers, possessing a sweet fragrance. * (R Lemon Yellow)...	.40	2.75	24.00

Orange Varieties

	Doz.	100	1000
Fred Moore. Dark orange sport of "Thomas Moore." Quite original. * (R Dark Orange, shaded with red).....	\$.40	\$2.50	\$22.00
Thomas Moore. Dull rosy terra cotta, shading at edges to golden yellow. * (R Bright Orange, shaded with scarlet).....	.35	2.35	22.00

Red and Gold Variety

	Doz.	100	1000
Kelzerkroon. An old favorite.....	\$.40	\$2.85	\$26.00

Blending of Single Early Named Tulips

Instead of offering a cheap mixture of single early tulips as other firms do, we are again taking a step forward and are offering an assortment of named bulbs—made up to our order—containing nearly 100 different varieties.

This blending is made up entirely of bulbs suited for growing in the garden and is not satisfactory for forcing in the house.

This is surely another mark of our superior service.

	100	1000
Blending of single early tulips.....	\$2.25	\$20.00

Double Early Tulips

Double Tulips follow the single tulips in time of blooming, extend the flowering season, and last much longer in bloom. Some of the newer sorts, in which our offer abounds, are equal to the choicest pæonies, and we have often wondered why such magnificent flowers should not be found in every better garden.

Red Varieties

	Doz.	100	1000
Imperator Rubrorum. Glowing scarlet; very large. (R Glowing Scarlet)....	\$.60	\$4.25	\$40.00
Le Matador. Rich glowing scarlet with purple sheen on outside of petals. * ..	.75	5.50	52.00
Rubra Maxima. Deep red. *45	3.65	30.00

Pink Varieties

La Grandesse. Dark pink. Very large flower. (R Rich Rose Pink).....	\$.45	\$3.00	\$28.00
Lucretia. Deep rose. The flower is so double that some petals protrude above the others. The very feature so prevalent among pæonies. An irregular but artistic feature. An inspiration for the flower lover. (R Deep Rose-Pink).....	.45	3.00	28.00
Murillo. Delicate rose-pink, flushed white. * (R Light Rose-Pink).....	.55	3.50	30.00
Rose d'Amour. Delicate pink of a very distinct shape. * (R Delicate Rose-Pink)85	6.50
Salvator Rose. Deep rose, slightly flushed white. * (R Deep Rose-Pink).....	.50	3.75	35.00

White Varieties

Boule De Neige (Purity). Pure white. A loose, elegant flower, resembling in many ways the finer pæonies. *	\$.55	\$3.50	\$30.00
Schoonord. Snow white, a sport of "Murillo." *55	3.50	30.00

Yellow Varieties

Couronne d'Or. Orange yellow, flushed orange red. * (R Orange Yellow, flushed red)	\$.85	\$6.50	\$60.00
Golden King. Canary yellow. One of the best. A sport of the well-known "Tournesol." * (R Bright Lemon Yellow).....	1.25	9.00
Tea Rose. The identical shade of the tea rose, "Perle de Jardin." In the passing it turns to apricot rose. * (R Primrose Yellow, shaded soft rose)..	.85	6.50	60.00
Tournesol Yellow. Bright yellow, shaded orange.....	.75	5.00	45.00

Double Early Tulips Mixture

All that we have stated in reference to our mixture of "Single Early Tulips" holds good here. We are positive that never before have such quality mixtures been furnished to the American gardener.

Per 100	\$ 2.25
Per 1000	20.00

DOUBLE LATE TULIPS

The following varieties are usually found among the offerings of the "Double Early Tulips," and when planted in combination with these must cause disappointment, for they flower a week late, and almost as late as Darwins, and in consequence they spoil the appearance of the bed.

	100	1000
Finest mixture	\$2.25	\$20.00

DUTCH HYACINTHS (SINGLE)

Importing Hyacinths has always been one of our specialties, and we have made it a point to keep up to the high standard quality of these stocks. For bedding, the Hyacinths are very valuable, coming as they do in the early Spring, and filling our gardens with charm. For forcing in pots, they are very widely used, while one may be able to purchase Hyacinths in pots from his florist, he can never purchase such wonderful flowers as he can grow for himself. The reason of this is, the florist at all times uses an inferior grade of bulbs, but, by forcing the supreme first size bulbs offered by our firm, you are certain to achieve wonderful results. Our Hyacinths are imported from the largest specialists in this class of flowers in Holland. We received the cream of his stock, and can promise you the best bulbs obtainable.

Suited for Growing in the House and Garden

The following are all perfect first size. The single form only.

Varieties prefixed (G) are exclusively for garden use.

Varieties prefixed (W) are suited for growing in water.

Pink and Red Shades

	Doz.	100
General de Wet. The medium-sized bells are of a lively, light pink color, with a lighter center, and form a big loose spike. (R Near to Cameo Pink).....	\$1.60	\$11.00
(G) Gertrude. Dark pink, clear in color and a compact, effective spike. (R Deep Rose Pink)	1.50	10.00
Gigantea. The small, delicate pink bells form an immensely large spike. Stem rather weak, and recommended for the house only. (R Cameo Pink).....	1.60	11.00
(W) Lady Derby. A most lovely shade of delicate pink. A perfect spike on a rigid stem. In our opinion, the best of all pinks. (R Pale Rhodonite Pink)....	1.60	11.00
(G) Ornament Rose. Large broad spike; soft flesh pink. Splendid for garden. (R Hydrangea Pink)	1.15	10.50
Queen of the Pinks (New). A beauty in every sense of the word. An exquisite brilliant pink, with a flame effect. An immense spike. (R Deep Rose Pink)...	2.50	15.00
(G) Robert Steiger. Deep red, excellent for the garden.....	1.50	11.00

DUTCH HYACINTHS—Continued

(W) Rosen Maxima. Long, loose truss of delicate pink.....	1.50	11.00
White Shades		
Corregio (New). The large, fleshy bells are snow white and form a perfect truss of great beauty and size.....	Doz.	100
(W) Grandeur à Merville. Large handsome truss of blush white. Splendid for the garden.....	\$1.60	\$11.00
(W) La Grandesse. Unrivalled as the queen of white hyacinths. The intense whiteness of the large flesh bells and the size and shape of the truss cannot be duplicated by any other sort. Always among the prize-winners at exhibitions. We can positively furnish some bulbs free from any disease.....	1.60	11.00
(W) L'Innocence. Pure white, erect spike, dressed with wide open, immensely large flowers. Very popular and used in great quantities for gardens.....	1.75	12.50
Monsieur Van der Hoop. A pure white sport of the popular variety "Madame Van der Hoop." A great improvement and especially recommended for pot growing	1.75	12.50

Blue, Violet and Purple Shades

Capt. Boyton. Bright lavender with silvery shading. Handsome long spike. (R Deep Lavender Blue).....	Doz.	100
(G) Competitor. Light blue. A large, perfect flower of great brightness. To be highly recommended both for gardens and growing in pots. (R Campanula Blue)	\$1.75	\$12.50
Enchantress. Most delicate delft blue. One of the most beautiful light blue hyacinths. The splendid well-finished truss has a strong stem and makes it excellent for all purposes. (R Pale Bluish Violet).....	1.50	10.00
Grand Maitre. Deep lavender with a flush of darker blue; immense loose spike. (R Deep Lavender Blue).....	1.75	12.50
(G) King of the Blue. Rich dark blue. One of the largest flowers existing. The shade of blue is best described as indigo. (R Blackish Violet, glittering).....	1.75	12.50
Perle Brillante. Light blue, tinged lavender. Produces an enormous spike of perfect shape; rather late in blooming. (R Pale Ampara Blue).....	1.50	11.00
(G) Potgieter. Light delft blue. A splendid variety which is suitable for all purposes and which should be better known. It produces a big, well-shaped truss and carries the spike erect. (R Pallid Blue Violet).....	1.75	12.00
(W) Queen of the Blues. Delicate azure blue. Its unusually bright blue bells of medium size form a big, compact truss on a strong stem, which makes it perfect for either garden or pots. (R Pallid Violet Blue).....	1.60	11.00

Yellow Shades

Buff Beauty (New). Buff orange yellow. Long narrow truss on strong stem. One of the finest art shades. Splendid when combined with "Lady Derby".....	Doz.	100
City of Haarlem. Golden yellow. The shade is of the purest golden. The truss is large and well formed, and we consider it the best of the deep yellows.....	\$1.65	\$12.00
Daylight (New). Primrose yellow. Very soft and refined color.....	2.50	14.50
(G) King of the Yellows. Rich deep yellow.....	1.75	12.00
Yellow Hammer. The most popular sort of the yellows. The golden yellow color and a compact ball-shaped truss makes one think of a hammer.....	1.75	12.00
	2.50	15.50

SPECIAL GARDEN HYACINTHS

The following selection comprises a list of sorts which are especially selected for their merits as garden sorts, holding their spikes erect and being particularly attractive in shades.

We are quite certain that it is not necessary to resort to the "perfect first size" in order to have a beautiful effect in the garden, and so we offer here a size which we consider ideal for the purpose and which is much less expensive.

Pink and Red Shades: Lady Derby, delicate pink. La Victorie, dark pink. Rose à Merveille, bright pink.

Blue Shades: Competitor, light blue. King of the Blues, dark blue. Grand Maitre, deep lavender.

White Shades: L'Innocence, pure white. Grandeur à Merveille, blush white. La Grandesse, pure white.

Yellow Shades: King of Yellow, deep yellow. Daylight, primrose yellow.

Violet Shades: Lord Balfour, lilac. L'Esperance, claret.

Per doz., \$.90. Per 100, \$6.50. Per 1000, \$55.00.

MINIATURE OR DUTCH ROMAN HYACINTHS

The amateur public has missed much in the past by not embracing more freely these graceful flowers for house culture or for cutting.

The bulbs, being that of a very young Hyacinth, produce a lovely graceful spike, where the flowers are individually placed along the stem, giving it all the appearance of the French Roman Hyacinths.

The bulbs, being small, can be potted in shallow pans, and a great number crowded together. The effect of such a pan in full bloom is most charming.

We offer such varieties only as are suitable for this purpose and such as are most effective.

Pink Shades: Gigantea, delicate pink. Lady Derby, delicate pink. Garibaldi, scarlet.

Blue Shades: Queen of the Blues, azure blue. Grand Maitre, deep lavender. King of the Blues, dark blue.

White Shades: L'Innocence, pure white. La Grandesse, pure white. General Vetter, blush white.

Yellow Shades: Yellow Hammer, golden yellow.

Violet Shades: Wm. Mansfield, ruby violet.

Prices for all: Per doz., \$.50. Per 100, \$3.50 Per 1000, \$30.00.

Roman or French Hyacinths

These are not suitable for garden work, as they are not hardy, but are splendid for growing in pots, pans or flats in the house or conservatory, and by timely planting can readily be had in bloom by Thanksgiving. From a single bulb are produced from three to five graceful, slender flower stems which are dressed with loosely arranged medium-sized bells. Splendid for cutting and exquisitely scented.

Delivery of Roman Hyacinths in August

Daffodils and Narcissi

What a wealth of glorious thoughts enter our minds when we hear the word "Daffodils!" When we see the Daffodils in the gardens, we say a last farewell to winter, and as April meets May those who have thoughtfully prepared during the fall will glory in their showers of gold, and the smiling, enchanting faces of the ever-rippling Jonquils and Daffodils. The heart of man must indeed be made of stone if a mass of Daffodils planted by the woodside, or the brook, in the border or under trees, near pines, does not make him rejoice anew in the rejuvenation of nature and remember his childhood days, when in field and woods he rapturously sought the first flowers of spring. What a wealth of material the daffodils offer us for the garden, the fields, the woods, the hills and the valleys, and everywhere that we seek the verdure and golden dewdrops!

We offer the mammoth size bulbs only, and our prices must not be confused with firms who offer the smaller sizes.

Trumpet Daffodils

Under this heading are classified all flowers whose trumpets or crowns are as long or longer than the perianth segments or spreading petals.

Section 1. Ajax Bicolor

Of the following sorts, the trumpets are yellow and the perianths are white.

	Doz.	100	1000
Empress. A massive, bold flower of pure white perianth and deep yellow trumpet. (R Creamy White perianth; trumpet, Lemon Chrome).....	\$.65	\$4.25	\$38.00
Madame Plomp. An immensely large, well formed flower. Pure white perianth, golden yellow trumpet. A bold and solid flower. (R Pure White perianth, Lemon Chrome trumpet).....	.70	5.00	45.00
Mrs. Walter T. Ware. A very free and early blooming daffodil with pure white perianth and a well expanded, beautifully recurved golden yellow trumpet. (R White perianth, Lemon Chrome trumpet).....	.60	4.00	35.00
Van Waveren's Giant. Undoubtedly to-day the largest of all trumpet daffodils, excelling even the great King Alfred. This latter has one faulty feature, namely, that the first year planted it produces occasionally only small flowers. This disappointment will never occur with the present novelty. The perianth is primrose with bright yellow trumpet.....	Each \$1.00,	doz. \$10.00	
Victoria. One of the showiest flowers. Broad, creamy white perianth, and a clear, rich yellow fluted trumpet. Very large and frilled at mouth. Splendid for garden or house. The best bedding daffodils. (R Sulphur White perianth, rich Lemon Chrome well formed trumpet).....	.70	5.00	45.00

Section 2. Ajax White

Of the following sorts, both trumpet and perianth are white.

Albicans. White perianth, primrose trumpet.....	\$.55	\$3.50	\$30.00
Mme. de Graaff. One of the largest and finest of all white daffodils. Perianth pure white; trumpet very pale primrose, passing to pure white. A most refined and delicate flower. Strong, healthy grower.....	1.40	9.00
Mrs. J. B. M. Camm. Perianth white; trumpet creamy white.....	.70	5.00	45.00
Mrs. Thompson. Very large and handsome; pure white. (R Creamy White perianth and trumpet, elegantly frilled).....	.60	4.00	35.00
Wm. Goldring (the Swan's Neck Daffodil). White perianth, drooping over the long trumpet. (R All White).....	.60	4.00	35.00

Section 3. Ajax Yellow

Of the following varieties, both the perianth and the trumpet are yellow.

	Doz.	100	1000
Ard Righ (Irish King). Perianth and trumpet deep yellow. (R Rich Golden Yellow, with a well reflexed trumpet).....	\$.70	\$5.00	\$45.00
Cornelia. A great improvement over the popular "Emperor," being much larger. Soft canary yellow.....	4.00	30.00
Emperor. A gigantic flower of remarkable substance. Perianth deep primrose yellow, broad at base. Trumpet rich yellow. (R Picric Yellow perianth; rich Lemon Chrome trumpet).....	.60	4.00	35.00
Glory of Leyden. Full yellow. One of the largest among the large trumpet daffodils. (R Pale Lemon Yellow perianth, trumpet Lemon Chrome).....	1.10	7.50
Golden Spur. A very popular sort. The entire flower a deep, rich golden yellow. Perianth large and spreading. Large trumpet, with broad, open mouth70	5.00	45.00
King Alfred. A remarkably handsome daffodil of enormous, gigantic proportions. Color a uniform clear rich yellow. (R Perianth and trumpet rich Lemon Chrome, or rather a rich Golden Yellow). Each, \$.75.....	7.50	60.00
Princeps. A very inexpensive sort, which is grown in masses for naturalizing or by florists for forcing during winter. Perianth sulphur, trumpet yellow. (R Primrose perianth, rich Lemon Yellow trumpet).....	.40	3.00	25.00

Barrii Daffodils

Under this heading are classified all daffodils whose cup or crown measure less than one-third the length of perianth segments.

	Doz.	100	1000
Barri Conspicuus. Large, broad-spreading perianth of soft yellow. Short yellow cup, edged bright orange scarlet. One of the best varieties for naturalizing. (R Large Martius Yellow perianth, short Lemon Chrome cup, edged orange-scarlet).....	\$.40	\$2.50	\$22.00
Flora Wilson. Pure white perianth; yellow cup, edged orange-scarlet; a sterling beauty70	5.00	45.00
Maurice Vilmorin. Creamy white perianth, cup rather long and heavily stained scarlet; very beautiful. (R Creamy White perianth, cup stained deep orange)50	3.50	30.00

Miniature Daffodils or Jonquills

These have small onion-like foliage and produce several small but deliciously fragrant flowers on a stem. For pots or pans they are unrivalled, but do equally well out of doors.

	Doz.	100	1000
Single Sweet Scented. Golden yellow. (R Self-coloring Empire Yellow)....	\$.30	\$1.90	\$16.50
Rugulosus. Self-colored dark yellow. Large flower. Fine for naturalizing and pots. (R Empire Yellow).....	.40	2.40	21.00
Campernelle. Very free flowering; golden yellow. (R Empire Yellow).....	.35	2.25	18.00

The Incomparable Daffodil

Under this heading we classify all daffodils whose cup or crown measures from one-third to nearly equal the length of the perianth segments.

	Doz.	100	1000
Cynosure. Primrose perianth, changing to white; cup stained orange-scarlet	\$.40	\$2.50	\$22.00
Queen Bess. Earliest of all; perianth pure white, cup pale yellow; large and well expanded. (R Creamy White perianth, Picric Yellow cup).....	.40	3.00	25.00
Sir Watkin. Perianth sulphur yellow; large and well-formed yellow cup, tinged bright orange; a giant among the medium trumpet daffodils. (R Martius Yellow perianth, Lemon Chrome crown).....	.60	4.00	35.00

Leedsi Daffodils

Comprising all the chalice cupped and short cupped sorts. Perianths are white; cup or crown may be white, cream, or pale primrose.

They are known as crosses between white Trumpet Daffodils and the Poet Narcissus. The crowns are as large as those of the "Barrii" and "Incomparable."

	Doz.	100	1000
Minnie Hume. Starry white perianth; cup pale yellow, passing into white. A splendid flower and excellent for massing. (R Creamy White perianth, cup passing from fine Lemon to White).....	\$.40	\$2.75	\$24.00
Mrs. Langtry. A remarkable free flowering variety with broad white perianth and large white cup, edged bright yellow. In mass effects, both in the garden or when cut, it has all the appearance of a pure white daffodil. (R Large White perianth, with large White cup, edged martius yellow)...	.40	2.75	24.00
White Lady. Broad white perianth; dainty cup, shaded soft lemon, beautifully crinkled	1.50	10.00

The Poet Daffodil

OR

The Pheasant's Eye Narcissus

The most popular of all garden Narcissus, and often used by the hundred thousands for naturalizing in fields, meadows or woods. It is the one flower which every one seems to call Narcissus, and this very title has led to numerous disappointments in the past. All daffodils are equally Narcissus, and unless the word "Poet" is added to it, the seedsman invariably furnishes the "Ajax" type, and, in consequence, there is disappointment to follow. Although this class is used in masses for outdoor decoration, many of the sorts offered here are splendid for pot growing.

They are distinguished by their snowy white perianth and flattened yellow crown, more or less deeply colored with scarlet and crimson.

	Doz.	100	1000
Poeticus Type. The common Pheasant's Eye Daffodils are used exclusively for garden work or naturalizing. We furnish large double nosed bulbs, which when growing produce large clusters of foliage and flowers.....	\$.35	\$2.10	\$19.00
Poeticus Ornatus. Much larger than the foregoing and a week earlier to bloom. Can be used for forcing in conservatories. Double nosed bulbs only35	2.00	18.00
King Edward VII (Almira). Enormous large flowers of snow-white petals and a beautifully shaped cup canary yellow, bordered red. In all respects a superior variety.....	.70	5.00	45.00
Poetarum. Perianth pure white; cup bright orange scarlet.....	.40	2.50	25.00

Small Flowered Daffodils

The fact that the following varieties are rather miniature in size does not detract from their value, for they are just ideal for rockeries, borders and pots, and some of them are extremely beautiful, for beauty often expresses itself more forcibly in small flowers than in those of mammoth proportions.

Daffodils of this class are especially well suited for the rock gardens, or in wild spots in woods, for here is their native home.

	Doz.	100	1000
Burbidgii. Perianth white, cup margined red.....	\$.30	\$2.00	\$18.00
Biflorus. White perianth, yellow cup, twin flowering.....	.30	2.00	18.00
Triandrus Albus (Angel's Tears). Curious flower of pure white; very dwarf and pretty	1.10	8.00	75.00
Bulbocodium Citrinum (the Hoop's Petticoat). Pale sulphur flowers.....	1.00	7.00	65.00

Polyanthus Narcissus

By the French people they are known as "Tazetta" and are easily recognized, as the flowers appear in great numbers clustered on a stem.

Being natives of Southern France they are not hardy, but are used for growing in the house exclusively. The flowers have a very powerful fragrance.

The bulbs are usually delivered early, and if planted then, flowers may easily be had for Thanksgiving day and the Holiday season.

	Doz.	100	1000
Paperwhite Grandiflora. The most popular of all for growing in pebbles and water, or for forcing in soil or fibre. They are far superior to the "Old Chinese Lilies" and never fail to come into bloom within six weeks from the day of planting. They are best forced in a cool room as this will give the flower stem a better chance to develop. It is best to lay in a supply of these bulbs in the early Fall and make a succession of plantings about every two weeks. The bulbs will keep until March if stored in a cool room, and you may have them in bloom continuously from Thanksgiving until Easter. Extra large bulbs only.....	\$.50	\$3.00	\$27.50
Grand Soleil d'Or (The Golden Paperwhite). We import the bulbs of this variety from France, as we find the Holland grown bulbs will not force easily if used like the Paperwhites.....	.85	6.00	50.00

Poetaz Narcissus

A new race of quite recent introduction, a cross between the Poet class and the Polyanthus type, with the result that in this new class we have stems which produce from three to eight enormous flowers, often larger than the "Pheasant's Eye," and which are fully as hardy as the "Poet." In addition, the powerful fragrance of the Polyanthus class is so subdued that one is reminded of the fragrance of the gardenia. The flowers in bud form have all the appearance of a bud of a gardenia, and the unfolding is exactly alike. If grown out of doors a bed of these produces a dense mass of flowers. For pot growing they are of easiest possible culture.

	Doz.	100	1000
Aspasia. Perianth pure white with yellow eye; large flower; grows 24 inches high; 4 flowers to a stem.....	\$.60	\$3.75	\$35.00
Elvira. One of the best. The large flowers are of a remarkably good substance, are good keepers, very long stemmed and 4 to a stem; pure white with yellow eye.....	.60	3.75	35.00

SPRING FLOWERING CROCUS

"The Harbinger of Spring"

When the bright cheery faces of the Crocus make their appearance all gloom of winter is gone and even snowstorms which follow can never make us realize that spring is not with us. Millions of Crocus bulbs are planted each year in lawns or other natural surroundings, but very seldom has the gardener considered quality in these bulbs.

The usual quality of bulbs which are bought are not worthy the name of this beautiful flower, for not one-third make their appearance the following season. At this rate the bulbs are high priced. A good Crocus bulb should produce from 4 to 8 flowers, and only when these good bulbs are used can one be sure of a natural increase and a permanency.

Crocus are very attractive when grown in shallow dishes with pebbles and water.

Named Crocus in Colors

BLUE SHADES

	100	1000
Baron V. Brunow. Dark blue.....	\$1.65	\$15.00

HARDY LILLIES FOR GARDEN

Lilium Auratum

(GOLDEN BANDED LILY OF JAPAN)

Petals are ivory white banded with rich golden yellow and heavily spotted at base with deep crimson.

Extra Large Bulbs—35c. each; dozen, \$3.50; 100, \$30.00

Lilium Speciosum Album

A splendid variety, flowers being pure white.

Extra Large Bulbs—45c. each; dozen, \$4.50; 100, \$35.00

Lilium Speciosum Rubrum

White ground, spotted rose on each petal; excellent for cut flowers.

Extra Large Bulbs—45c. each; dozen, \$4.50; 100, \$35.00

THE MADONNA OR ASCENSION LILY

LILLIUM CANDIDUM

No other lily could ever take the place of this noble flower, for, while other lilies may be more gorgeous, there is none that finds itself so easily at home or makes itself so indispensable as the Madonna lily.

Whether we combine it in our plantings with its inseparable companions, the "Hardy Larkspur," or if we group it alone or have it rise above plantings of Sweet William or in stately procession of long rows, it is so resplendent in its whiteness that it adds purity to the garden and an incomparable godliness.

Lilium Candidums should last for years in gardens, and the reason that you have had different experience is because you have never purchased the right kind of bulb. This lily is a native of France, or rather it is grown there in large quantities for the "World's Supply."

Plant at least six inches deep and imbed the bulb entirely in sand. If the bulb shows a deep hole where last year's flowerstalk was, plant it on its side, for otherwise surplus moisture might gather in this pocket and decay the bulbs.

Monster Bulbs	Doz.	100
	\$2.50	\$16.00

LILIES FOR FORCING

Lilium Harrisii

The True Old-Fashioned Strain

Our reputation on the reliability of this strain is now completely established and attested by the fact that the supply never equalled the demand, and that each season "Heatherhome quality" is the one predominating feature of these lilies. We control the entire output of a pains-taking grower, a man who has been a lily grower for fifty years and who knew lilies. We can never secure from him all that we wish, for he will not grow one bulb more than he can personally supervise. The plants grown from our bulbs have proven absolutely clean and healthy, with a sturdy growth and a splendid constitution. We can furnish hundreds of references from parties who have grown our lilies and recommend them.

We book orders now for August delivery.

Size, 7-9 (packed 200 bulbs to a case); extra large.....	Per original case of 200,	\$39.00
	Per 100,	20.00

PERENNIAL FLOWER SEEDS

Now is the ideal time to sow these seeds, so that your plants will grow all Summer and be strong enough to survive the Winter and flower for you next year.

Consult our general catalog for complete list. Should you not have one, would be pleased to mail copy on request.

HARDY PLANTS FOR THE GARDEN (Perennial)

Having a surplus of pot-grown plants, most of which will still flower this season, we give our patrons this opportunity to secure these excellent plants at greatly reduced prices.

Owing to the shortage of labor we cannot accept orders for less than six plants of one kind, and no order for less than twelve plants. Stock being limited, it would be advisable to make second choice, otherwise we will take the liberty to substitute.

\$1.50 per dozen. \$10.00 per 100.

HEATHERHOME'S FAMOUS POT-GROWN PLANTS

These plants are just ready for the garden, and, if planted now, will give wonderful results. We have a surplus and can supply Cactus, Decorative, Pæony, Single and Pompon. Tell us which type and color you prefer.

Owing to the shortage of labor, we cannot accept orders for less than twelve plants.

Our selection of variety: \$2.50 dozen; \$15.00 per 100.

HEATHERHOME PREPARED POTTING FIBRE

A large measure of the success in growing Bulbs in Fibre is in the quality of Fibre used.

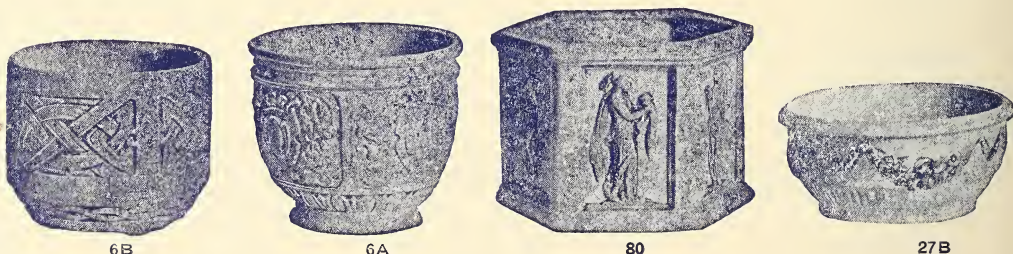

In order to have large blossoms and strong stems, it is necessary that the bulb receives plenty of food. This fact has received our most careful attention, and the Fibre we have made up contains all of the necessary ingredients to insure success.

We are pleased to recommend this "Top Notch Quality" product.

Per quart, \$.20; 4 quarts, \$.60; peck, \$1.00; bushel, \$3.00.

SUNDRIES

Auto Hand Sprayer

Auto Hand Sprayer

The most practical hand sprayer for the small garden. This sprayer is made of the best material and will give satisfaction with the hardest wear.

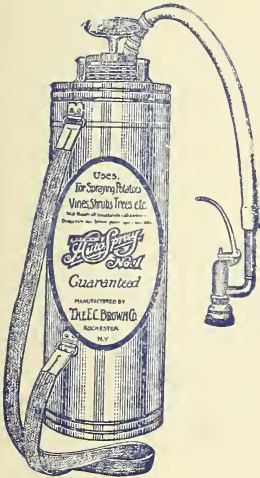

- No. 25C. Holding one quart; tin pump, brass tank. The pump cylinder is replated and non-corrosive. This is a continuous sprayer and requires the least amount of exertion Each \$2.00
 No. 25E. Holding one-half gallon; tin pump, brass tank..... Each \$2.50

For extensive use we recommend:

The Auto Spray No. 1

The standard of all compressed air sprayers; made out of heavy brass with a tank of four gallons capacity. Weight, empty, 9 pounds; height, 2 feet. It is equipped with a carrying strap, so it can be thrown over the shoulder; a fine spray nozzle, solid stream cap and either stop-cock or auto-pop nozzle. After pumping, simply direct the spray.

- No. 1A. Brass equipped with hose and regular nozzle \$10.00
 No. 1B. Brass, equipped with hose and "Auto-pop" attachment. This attachment controls the flow instantly by pressure of the hand..... 11.00
 Brass 90-degree elbow to enable to spray the underside of leaves..... .50
 Bamboo brass lined extension, 9 feet, with stop-cock 4.00
 Bamboo brass lined extension, up to 20 feet, with stop-cock..... 6.00

Auto Spray No. 1

Erado

A new and simple instrument used with gasoline for exterminating weeds in the lawns and walks. This instrument holds about a pint of gasoline and by simply pressing gently from the top enough gasoline will then be injected into the weed to kill same immediately.

HEATHERHOME'S INSECTICIDES

In the following list we offer a most critical selection, because we do not believe in offering more than one remedy for a certain evil, and we only offer that one because we have found it superior to all others.

For this reason our offer is most distinct and of especial value to the amateur.

Aphine. The most effective remedy against the Aphis, commonly known as Green Lice, or Black Lice. They trouble Roses, Sweet Peas, Nasturtium, Chrysanthemum, etc.

Aphis Punk. In 6x33 inch sheets.....Per carton of 12 rolls, \$.60
Pint, \$.65; quart, \$1.00; gallon, \$2.50

Arsenate of Lead (Paste). Sure death to the Roseworm, Gypsy Moth, Coddling Moth, or any leaf-eating insects.....Lb., \$.40; 5 lbs., \$1.75; 28 and 56-lb. buckets, \$.30 per lb.

Black Leaf No. 40. A remedy against the Leaf Curl which attacks Fruit Trees and Snowball Bushes; also excellent for the Chinch Bug on Dahlias.....1½-lb. tin, \$1.00, 2 lbs., \$3.00

Fungine. Excellent for preventing and remedying mildew on Roses and Phloxes, and blight and wilt on Larkspur, Stock, Cornflowers and Asters....Pint, \$.65; quart, \$1.00; gallon, \$3.50

Herbicide. Just the right material to destroy undesirable growth in roads, pathways, etc.
Quart, \$.60; half gallon, \$1.15; gallon, \$2.00

Nikoteen. A tobacco extract for fumigating greenhouses....1½ oz., \$.40; ½ lb., \$.85; 1 lb., \$1.50

Pyrox. A combination of Bordeaux Mixture and Arsenate of Lead. Therefore, the very best spray for Fruit Trees, to produce clean fruit..Lb., \$.40; 5 lbs., \$1.50; 10 lbs., \$2.75; 25 lbs., \$6.00

Scaline. The most effective spray against scales on Fruit Trees or Lilacs.....Gallon, \$3.50

Tobacco Dust. For fumigating and dusting plants affected with Aphis.
Per lb., \$.15; 5 lbs., \$.60; 10 lbs., \$.80; 50 lbs., \$2.25; 100-lb. bag, \$4.00

Vermine. The great enemy of all soil insects....Quart, \$1.00; gallon, \$3.00; 5-gallon keg, \$14.00

PLANT FOODS

Heatherhome Prepared Fibre......Quart, \$.20; 4 quarts, \$.60; peck, \$1.00; bushel, \$3.00

Pulverized Sheep Manure. Nothing better for general use, even considered better than stable manure. May be spaded into the ground or applied as a top dressing. Use it liberally. Also excellent as a liquid food.....10 lbs., \$.75; 25 lbs., \$1.35; 100 lbs., \$4.00; ton, \$60.00

Pure Ground Bone. Excellent for Roses, Shrubs and Sweet Peas.
5 lbs., \$.45; 10 lbs., \$.75; 25 lbs., \$1.65; 100 lbs., \$6.00

Nitrate of Soda. A powerful stimulant and must be judiciously applied. Use in very small doses; dry only to the soil. An overdose kills.....5 lbs., \$.65; 10 lbs., \$1.00; 100 lbs., \$8.00

Humus. \$1.50 per bag. Special prices on larger quantities.

All prices on this page are subject to change, without notice.

STRAWBERRIES—POT GROWN

Should be planted between June 15 until July 15. Requires a sunny location; plant fairly deep in rich soil.

NEW EVERBEARING OR FALL BEARING VARIETIES

Americus. Rich deep berries, medium size, fine flavor.

Progressive. Round crimson berry, good fall variety.

Superb. A prolific bearer, continuous from June till October.

\$1.50 per Doz. \$9.00 per 100.

STANDARD VARIETIES

Barrymore. A fine variety, resembling Marshall; more prolific.

Brandywine. Berries large and firm; midseason.

Chesapeake. One of the best grown.

Gaudy. A late variety; firm berries of finest flavor.

Glen Mary. A prolific bearer; large size.

J. Johnson. Large berried variety; rich; very late.

McAlpine. Heavy yielder, very prolific.

Pride of Delaware. A firm berry, similar to Gaudy.

Wm. Belt. Large sized fruit, flesh solid; quite early.

Wm. Marshall. A splendid midseason variety; very popular.

The above 10 varieties, \$.75 per Doz. \$5.00 per 100.

P. S. Our stock is in splendid condition and will give great satisfaction.
